- **Subheadline:** Supplying high-quality cannabinoids to top global brands

Section 1: About Logos Botanicals

Logos Botanicals is owned and operated by Ryan Campbell, a veteran of the legal cannabis industry with over 15 years of sourcing and operational experience. Having worked across nearly every link in the cannabis supply chain (from cultivation and extraction to global distribution) Ryan brings unparalleled insight into one of the industry's most complex challenges: Sourcing.

At Logos Botanicals, we bridge the gap between brands, manufacturers, and trusted cannabinoid suppliers around the world. With deep relationships and a commitment to radical transparency, our goal is simple: build a cleaner, smarter, and more direct cannabinoid supply chain.

We're the best strategic partners you can ask for! From regulatory guidance and compliance to product development and global logistics, Logos Botanicals supports every stage of your growth. Our catalog includes everything from high-purity isolates and rare cannabinoids to custom blends! Delivered with consistency, speed, and integrity.

Logos Botanicals is building the cannabinoid supply chain of the future — one rooted in science, transparency, and shared success.

Section 2: Product Categories

CBD Isolate

Highly refined crystalline isolate containing 99%+ cannabidiol (CBD). Odorless and flavorless. Sourced from U.S.-grown hemp.

CBN Isolate

Purified cannabinol (CBN) isolate. Light amber to off-white appearance. Suitable for formulation into a variety of product types.

CBG Isolate

Cannabigerol (CBG) isolate produced from industrial hemp. White, powdery consistency. Popular for formulation versatility.

CBC Isolate

Cannabichromene (CBC) isolate. Slightly viscous and oil-soluble. Supplied in bulk with full-panel COA and compliance documentation.

THCV Isolate

Tetrahydrocannabivarin (THCV) isolate in high purity. Glass-like shard or crystalline form depending on temperature. Packaged for stability and ease of handling.

CBT Distillate

Cannabicitran (CBT) offered as a golden, viscous distillate. Available in bulk quantities with batch-specific COAs.

Custom Cannabinoid Formulas

Looking for a unique cannabinoid blend tailored to your product line? Logos Botanicals offers custom formulations based on target ratios, format, and application. Blending services available for isolates, distillates, and water-compatible cannabinoids.

Get in touch to discuss your needs and we'll build to spec.

Research & Specialty Cannabinoids

We regularly carry or have access to rare and emerging cannabinoids that may not be listed publicly. These include—but are not limited to—CBND, CBDP, THCP, and other high-value actives.

Due to compliance and regulatory factors, please inquire directly for availability, documentation, and purchase protocols.

Section 3: Why Choose Us

Why Choose Logos Botanicals?

Industry Experience

With over 15 years of sourcing and operational expertise, we understand the cannabis supply chain at every level, from seed to sale in each state and country around the globe.

Direct Global Sourcing

We work directly with vetted farms, processors, and manufacturers around the world to ensure product quality, pricing transparency, and supply reliability.

Full Compliance & Testing

All cannabinoids are backed by third-party, full-panel COAs. We only work with suppliers who meet GMP, ISO, and federally compliant standards and never sell products without a third party COA.

Fast & Reliable Fulfillment

Whether it's kilos or pallets, we move quickly. Our streamlined logistics ensure consistent delivery timelines and repeatable outcomes for your business.

Custom Solutions

Need a rare cannabinoid or a custom blend? We collaborate with brands and manufacturers to build customized solutions that scale with your product roadmap.

Built on Trust

We don't just sell cannabinoids — we build relationships. Our business is built on integrity, accountability, and a shared vision for where this industry can go.
